

# ASPART-X™ IC-320

ASPART-X™ IC-320 is the latest innovation from LINE-X® Protective Coatings. A ZERO VOC, aliphatic polyurea, ASPART-X provides superior U/V stability with excellent color and gloss retention. It is a versatile coatings solution with virtually limitless possibilities. From residential decks, patios, garage/basement floors - or commercial & industrial applications - ASPART-X provides unsurpassed performance. In Combination with other products in the LINE-X family, ASPART-X creates a tough, durable, U/V stable topcoat. No matter what your needs, your ASPART-X application will protect your investment for years to come.

## ASPART-X Features & Benefits:

- **Durable, Scuff-Resistant Coating**
- **UV Stable, High-Gloss and Color Retention**
- **Clear, High-Gloss Sealer for Concrete**
- **Replacement for Epoxies and Polyurethanes**
- **Optional Non-Skid Surfaces Available**
- **Professionally Applied**

### OPTIONAL NON-SKID FINISHES ARE ALSO AVAILABLE:

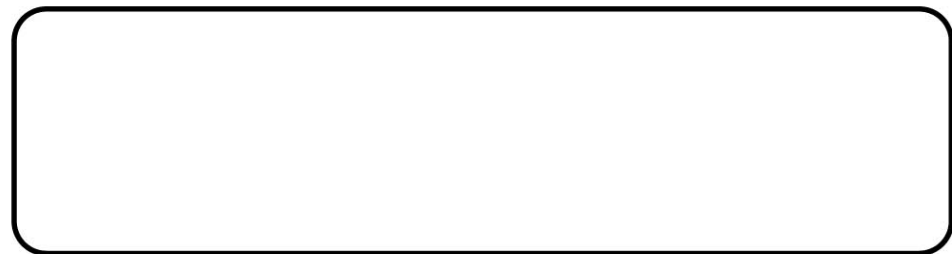

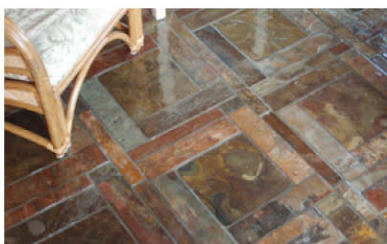

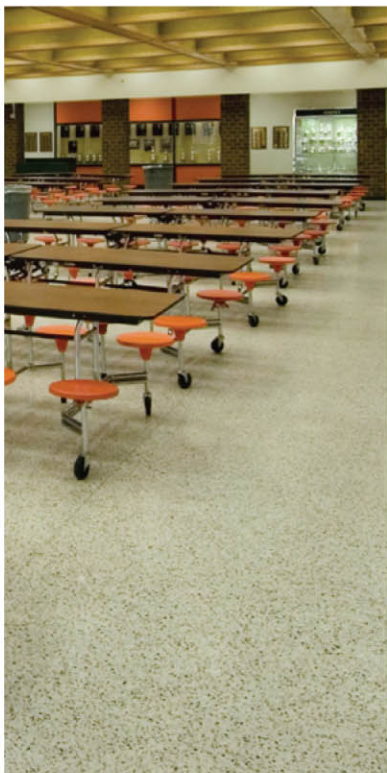

NS-75 or NS-100 are recommended for most flooring and decking applications for adequate traction and easy to clean surface. For a more aggressive non-skid surface, NS-50 or NS-20 is recommended.

ASPART-X is available in solid tan, gray, white, black and clear, as well as a wide variety of color chip combinations. Custom colors can be special-ordered to your specification for a wide range of flooring, decking, and industrial applications.
